## 1) Purpose

### Amazing Grace: Wilberforce's Guiding Principles

The Principle of **Purpose**

Out of this relationship with Christ, Wilberforce earnestly sought what God's purposes were. He had this immense struggle initially between staying in politics or going into the clergy. He went to Newton as his spiritual mentor and Newton told him, "God can use you in politics. You should stay there." Then he wrote to his friend William Pitt, who was not a believer. There is a line of dialogue in the movie that was taken from a letter that Pitt wrote back to Wilberforce – "Surely the principles of Christianity lead to action as well as meditation." So, his best friend is also telling him to stay in politics. He came to a belief that God wanted him in politics. Out of that belief came the statement that he wrote in his diary, which is his best known quote – "God Almighty has set before two great objects; the suppression of the slave trade and the reformation of manner." He was a man who had sought God, knew what his purpose was, and then with this incredible focus and intensity, pursued it passionately for twenty years.

### From Purpose to Impact - Harvard Business Review

Over the past five years, there's been an explosion of interest in purpose-driven leadership. Academics argue persuasively that an executive's most important role is to be a steward of the organization's purpose. Business experts make the case that purpose is a key to exceptional performance, while psychologists describe it as the pathway to greater well-being.

#### **Purpose-Driven Leadership - Forbes**

I would argue that purpose-driven companies have a *huge* competitive advantage right now. Employees and customers are hungry for purpose. Yes, employees want jobs. Yes, customers want deals. But even in a recession, we want more than that. We want to feel that our lives have a deeper meaning that goes beyond paychecks and discount shopping.

## [PDF]The Qualities of an Effective Pastor

Being **Purpose**-Driven: Sometimes the word driven is used in a negative sense, but here I mean those leaders who hearts beat and whose deepest desires are to see the church faithfully pursuing God's purposes. Purpose-driven leaders align resources including staffing, facilities, and finances, as well as their own time, to accomplish the purpose or mission of their organizations, as they understand them.

One of the first tasks of the leader is to help the community establish a clear, compelling, relevant, well-articulated **purpose**, and once that purpose is established to continually remind the community what it is.

## Understanding the People and Performance Link: Unlocking the Black Box by The CIPD (Author)

This report, the most in-depth of its kind to date, confirms the powerful relationships between HR practices, employee commitment and operating performance. It is based on a three-year investigation which looked at the HR practices, staff views and performance in 11 large organizations including Jaguar Cars, Nationwide Building Society, Selfridges and Tesco. The study provides answers to why and how people management practices influence business performance - to unlock what has been termed the 'black box'. Key conclusions include: the most carefully thought-through HR strategy is a waste of time unless it is embraced by line managers who have the skills and understanding necessary to engage and motivate employees - where effective HR practices are not in place, levels of employee commitment are up to 90 per cent lower - an organization needs a clear direction and **purpose**, beyond the bland mission statement or generic goal of financial returns, which engages, enthuses and unites people. At the Nationwide Building Society this is a commitment to mutuality. At Royal United Hospital Bath it is saving lives. This 'big idea' appears essential in motivating and directing people behind the strategy of the organization.

## 2) Reciprocity

### Leadership and Emotional Reciprocity | Lead Change Group

Your emotions and actions impact those you lead. Research indicates that a ten percent increase in a *perception* of a leader who creates a positive emotional work climate results in a three-fold increase in performance output and customer satisfaction. Individuals receive an emotional signal, good or bad, within the first 30 seconds of meeting you. The next 30 seconds will either confirm or deny this emotional signal to follow, or not follow, your leadership. Their decision has everything to do with the positive emotional connection between you and them. Clients, partners, employees and friends stay in relationships because they feel appreciated, utilized, enhanced and rewarded.

## Practical Tools for Leaders: Reciprocity: Cultivating Your Sphere of Influence

Consider these 3 ways to use reciprocity as a tool to expand your sphere of influence:

- Listen Skillfully. When you listen intently to the priorities of fellow colleagues, you quickly begin to identify opportunities to pay it forward.
- Be Straightforward. Don't be afraid to say that you value reciprocity and that you will strive to help a colleague move an initiative forward as much as possible.
- Focus on "Small Asks." Giving to your network is a generally understood principle. However, when it comes time to request something from your network, make reciprocity easy with small asks. Small asks are things that could be done quickly and easily. Remember that small asks, over time, get big results.

## reciprocity | Empower the Leader in You - LaRae Qu

President John F. Kennedy once said, "Ask not what your country can do for you. Ask what you can do for your country."

What makes this phrase so compelling is that it draws from one of the simplest rules of human behavior:

In order to get something, we must first learn to give.

[Understanding Reciprocity](#)

President Kennedy was using a powerful form of persuasion called [reciprocity](#). The theory behind reciprocity is that once I do something for you, you'll feel obligated to repay the favor. In this case, he was saying that once you make the decision to do something for your country, your generosity will enable your country to do something for you.

## Reciprocity (social psychology) - Wikipedia

In [social psychology](#), reciprocity is a [social norm](#) of responding to a positive action with another positive action, rewarding kind actions. As a social construct, reciprocity means that in response to friendly actions, people are frequently much nicer and much more cooperative than predicted by the self-interest model; conversely, in response to hostile actions they are frequently much more nasty and even brutal.<sup>[1]</sup>

Reciprocity makes it possible to build continuing relationships and exchanges. Fukiyama <sup>[2]</sup> states that "If the institutions of democracy and capitalism are to work properly, they must coexist within certain premodern cultural habits that ensure their proper functioning" (p. 11). He goes on to say "Law, contract, and economic rationality and prosperity.... must as well be leavened with reciprocity, moral obligation, duty toward community, and trust.... The latter are not anachronisms in a modern society but rather the sine qua non of the latter's success" (p. 11) According to the sociologist Alvin Gouldner (1960), this norm is nearly universal, and only a few members of society—the very young, the sick, or the old—are exempt from it.<sup>[3]</sup>

Reciprocal actions differ from altruistic actions in that reciprocal actions only follow from others' initial actions, while altruism is the unconditional act of social gift-giving without any hope or expectation of future positive responses.<sup>[4][5]</sup> Some distinguish between ideal altruism (giving with no expectation of future reward) and [reciprocal altruism](#) (giving with limited expectation or the potential for expectation of future reward). For more information on this idea, see [altruism](#) or [altruism \(ethics\)](#).

### The Reciprocity Principle: Followers and Leaders | Blog – Teleos

As both leaders and followers, we must stay mindful that our relationships with the people we work for and who work for us need nurturing if they are to grow and remain strong. We shouldn't need a crisis to be reminded to care and to create resonance. The leader who asks after my client's family understands that a little kindness can create a tremendous amount of positive energy, create a meaningful difference in the lives of those around him, and ultimately, support the organization as a whole in meeting its strategic goals and aspirations.

### Building a Resilient Organizational Culture - Harvard Business Review

The key to not only surviving such events, but to prospering during such upheavals, **we argue, is human resilience**. While human resilience may be thought of as a personality trait, in the aggregate, groups, organizations, and even communities can learn to develop a "culture of resilience" which manifests itself as a form of "psychological immunity" to, or the ability to rebound from, the untoward effects of adversity.

#### Interview with Joshua Cooper Ramo, Author of The Age of the Unthinkable

What matters is that we all do three things: first we have to live lives that are very **resilient**, which means taking care of ourselves, our savings, our family and our education so we can adjust to a rapidly changing world. Second, we all have to participate in a caring economy, devoting some of our life to helping others instead of relying on the government to help others for us. And, finally, we have to be innovative in how we live and think. We have to try to think of new ways to make a difference in the world as individuals, to help prepare our children to manage and control their own lives instead of relying on big corporations or the government to do so.

#### Psychological resilience - Wikipedia

Psychological *resilience* is defined as an individual's ability to successfully adapt to life tasks in the face of social disadvantage or other highly adverse conditions. Adversity and stress can come in the shape of family or relationship problems, health problems, or workplace and financial worries, among others.

### Resilience: Facing Down Rejection and Criticism on the Road to Success by Mark McGuinness (Author)

In *Resilience*, Mark McGuinness explains why your reactions to rejection and criticism are completely understandable - and shows you that overcoming adversity is a learnable skill.

Through stories from his own experience, as well as those of famous people who faced rejection and criticism on the road to their success, he will show you that you are far from alone in suffering from rejection and criticism.

And he draws on years of experience as a coach to give you practical advice that has been road-tested with hundreds of people facing similar challenges to you.

You will learn: Why rejection and criticism hurt so much, Several ways you may be making rejection worse (without realizing it), How to keep going in spite of multiple rejections, What to do with your fear of criticism, Why your inner critic is (potentially) your best friend, When to ignore the critics - and when to listen, Whether (and how) to respond to insults and abuse, Why success is harder than it looks - and how to deal with it.

This is not a theoretical book – it's packed with practical tips and techniques you can apply to your own challenges right away.

Whether you're just setting out, in the middle of your journey, or dealing with the unexpected challenges of success, *Resilience* will show you how to keep moving forward.

#### Resiliency in the Midst of Transition By Rev. Susan Nienaber

In this keynote address Susan Nienaber, Senior Consultant with the Alban Institute will share her insights, experiences and research with resilient congregations – those congregations that have experienced a high level of trauma and/or conflict and successfully recovered. She will share unpublished findings from this study with particular focus on what effective interim ministry looks like and what allows lay folk to hang in there in the face of enormous pain and challenges. After discussing the current realities facing many churches, she will outline what resiliency looks like at both a macro level of denominational shifts and changes as well as the congregational level. She will also share her experiences with congregations that “have slipped beneath the threshold of change” and are no longer viable in their current state.

#### RESILIENT LEADERS SHAPING HEALTHY CONGREGATIONS

Jennifer Prinz, Portico Benefit Services

Imagine this... Ending a long day energized instead of exhausted, being a non-anxious presence in the midst of a challenging conversation, feeling grateful for the abundant life and blessings God has given you. All of these things can make your church stronger and better equipped to serve the world. How? It starts with leaders and congregations working together to foster health and resilience. Jennifer Prinz, Regional Representative from Portico Benefit Services, will share some practical ways we can encourage health of body, mind, money, and spirit – not only for the sake of our leaders and our churches, but for the sake of the world.

### Resilient Leadership for Turbulent Times: A Guide to Thriving in the Face of Adversity [Jerry L. Patterson, George A. Goens, Diane E. Reed]

In this book, Patterson, Goens, and Reed draw upon resilience research and best practices to answer the question: 'How can leaders move ahead in the face of adversity?' This book benefits leaders who have confronted adversity in the past, struggle with adversity right now, or will likely encounter setbacks in the future. Leaders find concrete, how-to strategies for strengthening leadership skills in turbulent times in every chapter. *Resilient Leadership for Turbulent Times* aims to help leaders thrive in the face of adversity with the inclusion of the Leader Resilience Profile' (LRP)\_an instrument developed by Patterson and others to measure a leader's resilience in twelve categories. Readers are invited to complete the LRP and then apply the strategies outlined in each chapter to strengthen their leader resilience.

#### Surprises Are the New Normal; Resilience Is the New Skill – Harvard Business Review

Resilience is the ability to recover from fumbles or outright mistakes and bounce back. But flexibility alone is not enough. You have to learn from your errors. Those with resilience build on the cornerstones of confidence — accountability (taking responsibility and showing remorse), collaboration (supporting others in reaching a common goal), and initiative (focusing on positive steps and improvements). As outlined in my book *Confidence*, these factors underpin the resilience of people, teams, and organizations that can stumble but resume winning.

### The secrets of resilient leaders - Wiley Online Library

Those who thrive show resilience, the capacity to bounce back from misfortune, disruptive change, and failures. "Whether you are at the top of your organization, leading a team, or volunteering in your community, eventually you are sure to face a difficult situation or disruptive change," Shambaugh writes. She describes four secrets effective leaders use to tap into their own resilience and cultivate a more resilient culture within the organization.

### The Secrets of Resilient Leadership: When Failure Is Not an Option – Six Essential Characteristics for Leading in Adversity by Ph.D. George S. Everly Jr. (Author), Ph.D. Douglas A. Strouse(Author), George S. Everly III (Author)

Resilient leadership helps individuals, organizations, and even nations rebound from disaster. The leader who instills resilience is the leader who encourages us during crisis, when times are most troubled and when we doubt our own abilities. Resilient leadership inspires us to go places we would never have gone and to attempt things we never would have dared on our own. This book describes the six key principles of resilient leadership: following the moral compass of integrity, using the power of communication, optimism, and the self-fulfilling prophecy, taking responsibility for one's actions, building a resilient culture, and honing physical health as a competitive advantage. It then shows how they can be easily integrated into daily life, letting managers, friends, mentors, teachers, coaches, and even parents instill resilience. With this book, anyone, no matter what their role in life, can improve their ability to guide others through difficult times.

#### 8 Traits of Effective Church Leaders - The Christian Post

4. Acceptance of **responsibility**. We did not hear of excuses for ineffective ministry from these effective leaders, even though many of them experienced prolonged periods of struggles. Instead, these pastors accepted the leadership responsibility that comes with their position, and they refused to blame circumstances or others when the inevitable times of conflict and challenge occur.

#### Focusing and Assuming Responsibility

An assessment of the strengths and needs of the organizational system, including gathering information from the denominational connections, usually provides several different avenues of needs and concerns which the interim leader can appropriately address. The fourth task of that leader is to select the issues or activities which could be the emphasis of work during the interim time. The selection of an emphasis is based on several factors:

1. The leader's understanding of role and responsibility
2. The particular skills and experiences of the leader
3. The indications of relative openness in the system to one or more of the issues identified, including the agreement from other responsible leaders in the organization
4. The leader's understanding of God's call to her or him in this particular situation.

#### 4 Ways to Be a Leader - wikiHow

Make decisions and take **responsibility** for the consequences. To exert influence and tackle bigger problems, you're going to need decision-making powers, and those decisions will affect the people who grant you that power. This is as much a responsibility as it is an honor. Not only do you need to be able to make sound decisions, but you also need to be willing to be held accountable to them. If things go wrong, people will assume it's your fault (whether it is or not). Think of yourself as the captain of a ship; the fate of the ship is essentially in your hands, and it's up to you to steer everyone in the right direction. Exercise wisdom when being in charge; hope for the best and prepare for the worst. If you're not prepared to take responsibility for your decisions - if you struggle with hesitation and self-doubt - it might be a good idea to step down. An insecure leader often becomes a tyrant.

#### Responsibility at Work: How Leading Professionals Act (or Don't Act) Responsibly by Howard Gardner (Editor)

Filled with original essays by Howard Gardner, William Damon, Mihaly Csikszentmihalyi, and Jeanne Nakamura and based on a large-scale research project, the GoodWork® Project, *Responsibility at Work* reflects the information gleaned from in-depth interviews with more than 1,200 people from nine different professions—journalism, genetics, theatre, higher education, philanthropy, law, medicine, business, and pre-collegiate education. The book reveals how motivation, culture, and professional norms can intersect to produce work that is personally, socially, and economically beneficial. At the heart of the study is the revelation that the key to good work is responsibility—taking ownership for one's work and its wider impact.

#### Reviving the Congregation: Pastoral Leadership in a Changing Context Michael W. Foss (Author)

Pastoral leadership has always been challenging, but clergy and parish leaders today face unprecedented challenges, many of which simply didn't exist a generation ago. The questions of ministry and leadership in the church today range broadly across the financial and the managerial, the spiritual and the interpersonal.

In such a time a wise mentor who can articulate a way forward for others is an immeasurable help. In *Reviving the Congregation*, Michael W. Foss, bestselling author of *Power Surge*, steps forward as that mentor.

Bringing decades of experience in congregational life and leadership and a winsome style to the work, Foss offers a compelling introduction to the new context in which we lead, and the personal and congregational strategies that will offer a way forward. *Reviving the Congregation* is rooted in Foss's own experience, but it is open to all through questions for reflection, space for notes and journaling, and an extended bibliography for further reading.

It has been said that everything rises and falls on **leadership**. Every decision that is made, every action that is taken, every goal that has been set is the product of leadership. And as influencers of others this requires us to make decisions.

## You Win Or You Learn: Risk-Taking For Leaders - Forbes

The best leadership advice I ever received really represents what I saw in those leaders many years ago: *Don't be afraid to take risks*. What I didn't realize then but live by now is that risk-taking is essential in leadership. Taking risks involves moving forward despite fear and/or uncertainty. Until you experience discomfort, real growth and development do not exist. Realizing that failure leads to success when you learn from those mistakes will allow you to take risks more often.

### Edwin Friedman - Wikipedia

*Failure of Nerve-leadership in the age of the quick fix* finishing Friedman's work on his understanding of leaders as "self-differentiated or well-differentiated."

Friedman illustrates good "self-differentiated" leadership to that present in the great Renaissance explorers, where leaders had:

- the capacity to separate oneself from surrounding emotional processes
- the capacity to obtain clarity about one's principles and vision
- the willingness to be exposed and be vulnerable
- the persistence to face inertial resistance
- the **self-regulation** of emotions in the face of reactive sabotage.

## 9) Seminary

### Ministry Greenhouse: Cultivating Environments for Practical Learning [George M. Hillman Jr.]

Known as "the internship guy" at Dallas Theological Seminary where he teaches, George Hillman talks daily with students about God's movement in their lives. The goal of *Ministry Greenhouse* is to help **seminary** and Bible college students, their supervisors, and the lay leaders who work with them create the best environment for leadership development through a beneficial internship. An internship is not busy work or cheap labor but is instead fundamental to the development of a leader. Hillman first makes a case for internships, arguing that the purpose of the seminary or Bible college is to train both theologians and practitioners. He explores the meaning of "call," identifies the ingredients of a successful internship, discusses strategies for establishing goals for an internship, and offers guidance for reflecting on learning during an internship. Hillman also provides tools for identifying competencies and sample goals. A great internship experience places a student in an environment where God can work through him or her in the lives of other people and in the student's own life to develop calling, character, and competencies. Ministry Greenhouse shows students, their supervisors, and the congregations and other organizations they serve how they can create just such an environment.

### Preparing for Ministry: A Practical Guide to Theological Field Education [George M. Hillman Jr.]

Most **seminaries** now require their students to get real world training by way of supervised theological field education. This volume presents the wide array of issues that must be understood in order to integrate theological education and practical

ministry, including the importance of theological field education, its purpose and challenges, the need for flexibility in meeting different students' needs, and the resources available to create a meaningful and educational experience.

### Mission and Vision - Luther Seminary

#### Mission and Vision

Luther Seminary adopted its mission statement in 1995 and its vision statement in 2017.

Both statements represent major markers on the path of our journey. They serve as a primary points of reference for all of the seminary's strategic decisions. They are dynamic in character—living statements that continue to breathe life into the seminary's work.

#### Mission Statement

Luther Seminary educates leaders for Christian communities called and sent by the Holy Spirit to witness to salvation through Jesus Christ and to serve in God's world.

#### Vision Statement

The Holy Spirit calls Luther Seminary to lead faithful innovation for the sake of the gospel of Jesus Christ in a rapidly changing world.

### Sorting It Out: Discerning God's Call to Ministry [Alice R. Cullinan]

*Sorting It Out* walks Christians of all ages through the questions and uncertainties that come with a person's call to vocational ministry. Alice R. Cullinan analyzes what a call is, provides many examples of how others have received the call, considers the different kinds of ministry opportunities, and offers advice on how to proceed once one discerns a calling from God.

Ideal for students of Christian schools and seminaries, *Sorting It Out* is also appropriate for admissions counselors, youth pastors, and others who might be involved with advising persons who seek God's call for their lives.

### [DOC]Church Size Dynamic Chart - MinistryLift

"One size doesn't fit all..." is not only the title of a book but is a reality for Church Leadership. This chart presents four general categories of church size, each with its own organizing dynamic and leadership challenge. The answer to such questions as: *how is the church structured? Who provides direction and ministry? What is the role of a Board, of a Pastor, of Staff? What opportunities and challenges exist? How are decisions made and directions identified? How is vision developed and mission fulfilled?* ...differ according to size.

## THE RELATIONSHIP BETWEEN PASTORAL LEADERSHIP CHARACTERISTICS AND CHURCH SIZE AND GROWTH by King, David S., Ph.D., CAPELLA UNIVERSITY

This research study investigated the leadership practices of pastors. The pastors were all senior pastors of churches in North Carolina and Virginia that were members of the Willow Creek Association. The study sought to determine if significant relationships existed between the pastors' leadership characteristics (the independent variables) and the size and growth of the churches (the dependent variables) under their leadership. Leadership practices were identified and quantified by use of Kouzes and Posner's Leadership Practices Inventory (LPI). Church size and church growth measures were gleaned from a three-item demographic questionnaire. The data collected were analyzed based on the LPI's five leadership practices identified by Kouzes and Posner: Challenge the Process, Inspire a Shared Vision, Enable Others to Act, Model the Way, and Encourage the Heart. Correlational and multiple regression analysis of the 90 responses found significant relationships between Inspire a Shared Vision and 6-month proportional church growth, Model the Way and 4-year proportional church growth, Encourage the Heart and 6-month raw number church growth, and Encourage the Heart and 4-year raw number church growth. As such, this study has added to the bodies of knowledge of the complex issues of leadership and the local church as an organization.

### Activating Leadership in the Small Church: Clergy and Laity Working Together (Small Church in Action) [Steve Burt]

This book looks at small churches and helps you see that they are a different critter than their larger cousins. They have different characteristics, different behaviors, and different needs. This is an easy style and uses plenty of helpful "folksy" illustrations to make his points. The suggestions and ideas are appropriate to the small church. Stories and illustrations make this easy to understand. It also has an outstanding Annotated Bibliography listing other helpful books on small church topics.

Explores the interaction between pastors, leaders, and congregations. Includes guidelines for assessing ministry and programming needs.

### Developing Leaders for the Small Church: A Guide to Spiritual Transformation for the Church Board [Glenn C. Daman]

In his more than fifteen years as the pastor of a small church, Glenn Daman has learned what it takes to make a church board successful. In *Developing Leaders for the Small Church*, Daman explores the nature of spiritual leadership, illustrating why the focus of a church board shouldn't be dictated by organizational duties, but guided by spiritual responsibilities.

### Leading the Small Church: How to Develop a Transformational Ministry [Glenn C. Daman]

This follow-up to *Shepherding the Small Church* exhorts pastors to take their leadership to a different level, one that is rooted in spiritual activities like preaching and discipleship instead of professional leadership strategies.

### Leading and Growing Small Churches, Part I - Global Christian Center

In this article, I'll address the more practical issues of leading your church forward. You will quickly see that growing a healthy church has very little to do with the right programs. It's largely about you as the leader, your vision and the people's response.

That's where it all gets complicated. If it wasn't for people, this church thing would be a snap!

### Small Church Essentials: Field-Tested Principles for Leading a Healthy Congregation of Under 250 by Karl Vaters (Author)

Do you lead a small church?

Big churches get all the love. Articles, books, conferences—they mostly feature leaders of large congregations. Yet big churches are a *small part* of the ecclesial landscape. In fact, more than 90 percent of churches have fewer than 200 people. That means small churches play a *big part* in what God is doing in America.

*Small Church Essentials* is for leaders of these smaller congregations. It encourages them to steward their role well, debunking myths about small churches while offering principles for leading a dynamic, healthy small church.

Based on the popular six-hour lecture that Karl Vaters delivers to church leaders across the country, *Small Church Essentials* will affirm small church leaders and show them how to identify what they do well, and how to do it even better. Readers will:

- Be assured that leading a small congregation does not make them ministry failures

- Come away inspired to lead with passion, regardless the size of their church

- Have field-tested principles for leading a church to apply in their context

- Possess new metrics for biblically measuring vitality in small churches

- Have a toolkit of resources to use in their everyday ministry

Karl Vaters is a small church guru. He's been a small church pastor for 30 years, is the author of *The Grasshopper Myth: Big Churches, Small Churches, and the Small Thinking that Divides Us* (2013) and travels extensively to churches and conferences to speak about leading a small church well.

If you are pastoring a small church, this book will be a breath of fresh air. It will affirm your calling while giving you fresh tools to help you lead. It will help you:

- Stop believing lies about small churches

- Lead your church to fulfill the role only small churches can

- Understand your congregation's strengths and weaknesses

- Turn around a dying or unhealthy church

- Identify good trends and bad in church and culture

Includes a study guide of questions and guidelines to help a ministers' group or church staff start talking about and implementing the book's principles.

Spiritual Leadership in the Small Membership Church [David Canada]

The pressures of the church "doing business" often push pastors to the point that they neglect that which is central to all that they and the church are supposed to be doing – spiritual growth or leadership. Too few resources are specifically designed to address this subject from within the context of the small-membership church. This book will address both of these issues. Spiritual leadership is defined as the art or practice through which the leader helps others move toward spiritual maturation. It begins with spiritual instincts and moves to spiritual insights to spiritual initiative to spiritual integrity and finally to spiritual inclusiveness. This book focus on how this process works within the life of the pastor and moves to the life of the small membership church and includes concrete examples of how the pastor functions as a facilitator of spiritual formation will be given. Particular attention is given to ways in which the setting of the small-membership church both hinder and encourage spiritual growth.

Pastors of small congregations must fill many roles---but their *first* is that of nurturing spiritual growth. Featuring concrete examples, this helpful guide shows you and your parishioners how to move from religious instincts to divinely inspired insights, initiatives, integrity, and inclusiveness; and discusses the benefits and challenges of the small church.

## 12) Solutions

### Leadership Solutions - Witt/Kieffer

Witt/Kieffer's Leadership Solutions services help leaders, teams, and organizations *get to better*. What does getting to better mean? It means better awareness—a more thorough understanding of strengths, gaps, and needs. It means linking this newfound awareness to better leadership and greater success. There is no perfect leader. Everyone can get to better.

### Leading with Questions: How Leaders Find the Right Solutions by Knowing What to Ask by Michael J. Marquardt (Author)

Many leaders are unaware of the amazing power of questions. Our conversations may be full of requests and demands, but all too often we are not asking for honest and informative answers, and we don't know how to listen effectively to responses. When leaders start encouraging questions from their teams, however, they begin to see amazing results. Knowing the right questions to ask—and the right way to listen—will give any leader the skills to perform well in any situation, effectively communicate a vision to the team, and achieve lasting success across the organization.

Thoroughly revised and updated, *Leading with Questions* will help you encourage participation and teamwork, foster outside-the-box thinking, empower others, build relationships with customers, solve problems, and more. Michael Marquardt reveals how to determine which questions will lead to solutions to even the most challenging issues. He outlines specific techniques of active listening and follow-up, and helps you understand how questions can improve the way you work with individuals, teams, and organizations.

### Sam Bradford trade explained by Eagles, Vikings GMs | The MMQB with Peter King

I said to them: "This is what we're getting paid to do, finding the best **solution** out of the worst-case scenario. And that's what we're going to do here." I got up on the white board, and we sorted out the scenarios—guys on the street we might want, guys who might get cut, guys on teams that might have enough depth that they'd consider dealing [a quarterback]. Names and options. Then we all got to work watching tape, and I started making calls. To be honest, there was no solution. No good solution.

### Characteristic#100: Physical and Emotional Stamina

The tenets of *leadership* have not changed much over time but one *leader trait* we rarely read about is the one that holds back *leaders* from becoming truly successful. *Stamina* means that a *leader* has the ability to take on greater responsibilities and stay the course against inevitable obstacles.

**Stamina.** Leaders often are surprised at the mindless (unthinking) tenacity of reactivity. Often leaders will successfully address an issue and mistakenly assume that it's been resolved. But the fact is that the most willful persons or groups in the system just don't let up. Leaders need to cultivate the resource of stamina to endure those issues that come back time and again. And sometimes, the only way to change a system is to outlast those who remain entrenched.

Images for Becoming an Adaptive Leader - Lifelong Faith Step 5. Hold Steady

### Leadership on the Line - ShearonForSchools.com

Chapter 7: Hold **Steady**

This chapter, to me, is much like Chapter 5: Orchestrate the Conflict, but focused on just the leader's actions. Basically, leaders in adaptive challenges must be prepared to receive angry, attacking actions from members of the community without reacting defensively. These can be especially hard to take when they come from friends or allies.

The leader also has to exercise personal pacing by allowing (or causing) issues to ripen. The community must sense the urgency of the challenge. That means they cannot be distracted by other, more compelling crises, must understand how deeply it affects them, must sense that they can master any required learning, and must get the right signals from authority figures. In some cases, the leader can focus attention on the issue. Routine methods (calling a meeting, sending a memo, holding a press conference) may not always work, especially for non-routine problems.

The organization will likely react with some type of work avoidance mechanism: outright denial of the problem ("sweeping it under the carpet"), scapegoating, reorganizing, setting up a committee, finding an external enemy, blaming authority and character assassination. Actual physical assassination can be an extreme version of this in political contexts.

### Because of God's Great Mercy by Center for Stewardship Leaders - Luther Seminary

Leading congregations to embrace stewardship is hard work. Ultimately, this work is about changing the culture of conversation, theology, and practice concerning stewardship. While changing congregational culture is vitally important, sometimes, amidst the change we need a program, materials that move us from thinking to doing. Pastor Chick Lane, former director of the Center for Stewardship Leaders, has provided just this ministry in the "Because of God's Great Mercy" Stewardship Kit.

The ELCA Macedonia Project is a significant approach and resource by the Evangelical Lutheran Church in America (ELCA) to live into the spirit of the Macedonians by developing the perspectives, practices and skills relevant today. This approach and related resources focus on several specific goals, and the development of "common capacities" initially identified by **leaders** in synods and congregations. These goals and capacities lead to the formation of specific workshop outcomes.

### How to Increase Giving in Your Church: A Practical Guide to the Sensitive Task of Raising Money for Your Church or Ministry [George Barna]

One of the most difficult tasks facing any church **leader** is the issue of raising funds. It's not that we don't realize that tithing and giving are biblical issues: God's Word is full of strong statements about the stewardship of money. But how does a pastor convey God's heart for stewardship? Literally, what's the best way to raise the money your church needs to survive? Obviously, God is the one who builds the church - He is the ultimate provider. But what's the best process of shepherding the funds He has for your church? This step-by-step guide will give you tools you need to raise funds in your church-scripturally and successfully-without compromising biblical integrity. After all, it's God's church and His money-but our responsibility to manage it.

#### **Stewardshift: An Economia for Congregational Change [Bob Sitze]**

- A truly new approach to a very old problem
- Wide-ranging, thoughtful, challenging
- Introduces new concepts
- Experienced author of six books, regular blogger at "The Lutheran"

The collective groan that greets stewardship campaigns in most churches can be quelled. This book offers theoretical and practical propositions by which lay and clergy leaders can ensure the sustainability of stewardship ministries to help their congregations flourish. Bob Sitze invites stewardship **leaders** into a broader conversation of how shifted biblical and secular stewardship concepts, practice, and identity can be incorporated into a congregation's life and help bring about lasting change.

The book has two sections: Part 1, Scriptural Stewardshifts, reinterprets familiar biblical passages on stewardship, introduces new ones, and helps congregations expand their use of the Bible in their life and stewardship work. Part 2, Secular Stewardshifts, examines the resources that are available to congregations from the "continuing revelation" that is occurring in the secular world, including brain science, financial planning, philanthropy, community organizing, and other areas. The book is written in a friendly style, with reflection questions, so-what moments, and, and engaging sidebars.

The following is in response to a case study where a pastor begins ministry in a congregation that is, financial stewardship-wise, very dysfunctional. Aaron Werner responded to the challenge of this scenario by writing the following paper for a Luther Seminary Course, "Money and the Mission of the Church" in the spring of 2009.

### What me, a stewardship leader? - Faith+Lead

Many new leaders will soon be ready to move out into the life of the church as seminaries across our system celebrate graduations. We all know you aren't "ready" when you graduate; you aren't fully formed as a leader. Time and experience will continue to grow us until we retire, and even until we die. That said, we all hope to start well, and given that most of us began pretty green on the stewardship front, I offer some thoughts.

## 16) Structure

### Eight Quality Characteristics - Baptist Convention of Ontario and Quebec

#### 4. Effective **Structure**

A church can have wonderful ministries, innovative outreach programs, godly staff people, and a heart for God, but without effective structures, it will still be prevented from reaching its full potential for ministry. People will not know how to get involved with those ministries or access those outreach programs. Time will be spent duplicating efforts or expending energy in diffuse directions. Leadership development will be haphazard and inconsistent.

### Forming God's People – Alban Institute

#### Giving **Structure** to a Vision

In an urban United Methodist church, a few families wanted to re-envision how our lives embodied our faith. We were several years into Bible study, social analysis, covenant groups, mission attempts, and continuing growth as a multicultural congregation. Some biblical passages had lured us—Jeremiah called for immigrant Hebrews (actually interned war prisoners) to envision several generations of life and service in Babylon (Jer. 29). Isaiah's imaginative poetry celebrated a visible urban community that attracted the commendation and participation of others (Isa. 58). Luke's accounts in Acts and Paul's priorities in his letters gave us a sustained look at the Holy Spirit's generative and corrective work of establishing identifiable covenanted communities.

Leadership and Interaction Styles: Understanding Why We Behave the Way We Do in Groups by Dan R. Dick (Author)

In the business world people are pushed to stand out, succeed as an individual, and work cohesively in a group. Dan Dick and Barbara Miller Dick use insights from business and psychology to apply concepts of group dynamics to the work of the church. The text provides insight to four leadership types - thinkers, directors, dreamers, and pleasers, and includes a diagnostic inventory for group members. Readers will better understand their own styles and gain insights into the ways others think or face a project. The authors provide church leaders with the tools necessary to identify different leadership styles, how people with different leadership

styles interact and deal with stress, and how to create ministry environments where all can join together and work in harmony. Exercises provide an opportunity for church ministry teams to address differences and create productive communities for ministry growth.

### Leadership style - Wikipedia

A leadership style is a leader's style of providing direction, implementing plans, and [motivating](#) people.<sup>[*citation needed*]</sup> There are many different [leadership](#) styles proposed by various authors, that can be exhibited by leaders in the political, business or other fields. Studies on leadership style are conducted in the military field, expressing an approach that stresses a holistic view of leadership, including how a leader's physical presence determines how others perceive that leader. The factors of physical presence are military bearing, physical fitness, confidence, and resilience. The leader's intellectual capacity helps to conceptualize solutions and acquire knowledge to do the job. A leader's conceptual abilities apply agility, judgment, innovation, interpersonal tact, and domain knowledge. Domain knowledge encompasses tactical and technical knowledge as well as cultural and geopolitical awareness.<sup>[1]</sup> Daniel Goleman (2000) in his article "Leadership that Gets Results" talks about six styles of leadership.<sup>[2]</sup>

#### The Allure of Toxic Leaders: Why We Follow Destructive Bosses and Corrupt Politicians – and How We Can Survive Them by Jean Lipman-Blumen (Author)

Toxic leaders, both political, like Slobodan Milosevic, and corporate, like Enron's Ken Lay, have always been with us, and many books have been written to explain what makes them tick. Here leadership scholar Jean Lipman-Blumen explains what makes the *followers* tick, exploring why people will tolerate--and remain loyal to--leaders who are destructive to their organizations, their employees, or their nations.

Why do we knowingly follow, seldom unseat, frequently prefer, and sometimes even create toxic leaders? Lipman-Blumen argues that these leaders appeal to our deepest needs, playing on our anxieties and fears, on our yearnings for security, high self-esteem, and significance, and on our desire for noble enterprises and immortality. She also explores how followers inadvertently keep themselves in line by a set of insidious control myths that they internalize. For example, the belief that the leader must necessarily be in a position to "know more" than the followers often stills their objections. In addition, outside forces--such as economic depressions, political upheavals, or a crisis in a company--can increase our anxiety and our longing for charismatic leaders.

Lipman-Blumen shows how followers can learn critical lessons for the future and survive in the meantime. She discusses how to confront, reform, undermine, blow the whistle on, or oust a toxic leader. And she suggests how we can diminish our need for strong leaders, identify "reluctant leaders" among competent followers, and even nurture the leader within ourselves.

Toxic leaders charm, manipulate, mistreat, weaken, and ultimately devastate their followers. *The Allure of Toxic Leaders* tells us how to recognize these leaders before it's too late.

### Eye of The Storm: How Mindful Leaders Can Transform Chaotic Workplaces [Ray Williams]

Ray Williams is acknowledged as one of Canada's pre-eminent executive coaches, professional speakers and thought leaders on leadership, workplace culture, personal well-being and mindfulness. With *Eye of the Storm*, he presents his first book exploring in-depth the problems of a chaotic workplace and powerful leadership strategies to institute mindfulness practices into personal lives and organizations.

When we look for a thought leader we want someone who has leadership experience and research capacity. That's why many have turned to Ray Williams's numerous articles and interviews published in such prestigious publications such as the Washington Post, The Financial Post, The Huffington Post, and Psychology Today for his insights and knowledge.

With the advent of a global economy, technological innovation, automation, and economic restructuring caused by recessionary times, workplaces have become chaotic and stressful. The result has been: increased stress levels, workplace conflict and bullying, declining employee engagement, mental health issues, overall decline in worker well-being.

In *Eye of the Storm*, Ray Williams presents a powerful low-cost leadership strategy to address these issues--mindfulness practices. These practices include leaders demonstrating a mindful leadership style and specific practical mindful practices that include not only opportunities for meditation, but also informal mindfulness activities. He shows how these practices can have a practical and measurable impact on increasing and sustaining a productive and happy workplace. *Eye of the Storm* will be an indispensable book for HR practitioners, leaders, and employees wanting to make the workplace somewhere they will be productive and happy.

#### Good News from Great Leaders: Robert D. Dale

While tailored towards those in the ministry, the principles can readily be transferred to the home, business, and other areas. Topics included are that good leaders must: Be **transformers** and realize who they serve; have a clear identity of who they are; consistently display integrity; have a good sense of timing and flexibility; know there is a time and place for directive leadership; think and act strategically; be tough and tender; and, be team builders.

#### Leading for the Future » Alban

Leaders for the future have the spirit of an ascetic. The desert mothers and fathers of the fourth century understood what it took to remain faithful in a world that was suddenly different. Their genius was in going deeper into the self in order to know God more deeply. This self-knowledge is essential for faithful leaders. It is what enables the personal **transformation** that makes transformative leadership possible.

## Subversive Kingdom: Living as Agents of Gospel Transformation [Ed Stetzer]

The world is broken-- more so than we know. But for those who know that Christ is coming to establish a new and perfect order, ours is not just a world to endure but a world to invade. Believers have not been stationed here on earth merely to subsist but to actively subvert the enemy's attempts at blinding people in unbelief and burying them under heartbreaking loads of human need. The kingdom of God changes all that.

This world is a dark, evil, and broken place - more corrosive and corrupting than we even realize since we sit here in the middle of it, with nothing else to compare it to. But for those who know that Christ is coming to establish a new and perfect order, ours is not just a world to endure but a world to invade. Believers have not been stationed here on earth merely to subsist but to actively subvert the enemy's attempts at blinding people in unbelief and burying them under heartbreaking loads of human need. The kingdom of God changes all that.

Ed Stetzer's *Subversive Kingdom* is a personal call for Christians to reorient their thinking and lifestyle to match what Jesus described of His people in Scripture, while teaming up with other believers through their churches to bring light into a dying and darkening culture. Stetzer uses the parables of Christ to unlock the "kingdom secrets" that bring this mysterious concept within understandable reach, while urging Christians to turn this knowledge into practical, everyday, ongoing missions designed to set people free from lives headed for hopelessness.

### Transformational Church: Creating a New Scorecard for Congregations [Ed Stetzer, Thom S. Rainer]

How are we doing? The church, that is. And how are we doing it? Congregations have long measured success by “bodies, budget, and buildings”—a certain record of attendance, the offering plate, and square footage. But the scorecard can’t stop there. When it does, the deeper emphasis on accountability, discipleship, and spiritual maturity is lost. Ignoring those details, we see fewer lives transformed, Christian influence wane, and churches thin out—a situation that is all too familiar across North America today. It is time to take heart and rework the scorecard.

According to Ed Stetzer and Thom S. Rainer, the authors of *Transformational Church*, “Too often we’ve highlighted the negative realities of the declining American church but missed the opportunity to magnify the God of hope and transformation.” Based on the most comprehensive study of its kind, including a survey of more than 7,000 churches and hundreds of on-site interviews with pastors, *Transformational Church* takes us to the thriving congregations where truly changing lives is the norm. Stetzer and Rainer clearly confirm the importance of disciple making for all through active biblical engagement and prayerful dependence on God alongside of ever-increasing, intentional participation in mission and ministry activities. As the church engages these issues, the world will see the change: More people following Christ, More believers growing in their faith, More churches making an impact on their communities.

The transformation starts now.

### Training Program: Appreciative Leadership for Transformation

We define a leader as “someone other people choose to follow.”

This leads to three coaching questions that are asked and answered during this training:

- Why would someone follow you?
- Where would they end up if they did follow you?
- How would they be treated on the way?

### Transformational Discipleship: How People Really Grow by Eric Geiger (Author), Michael Kelley (Author), Philip Nation (Author)

A Christian's desire to grow in faith is beautiful and biblical, best illustrated in Jeremiah 17 where Scripture describes "The man who trusts in the LORD" as being "like a tree planted by water . . . It will not worry in a year of drought or cease producing fruit."

But how do people really grow? *Transformational Discipleship* describes the process that brings to life that kind of person described in the Bible. There's no magic formula or mantra to recite here, but rather a substantive measure of research with churches and individuals who have wholeheartedly answered the call of Jesus to make disciples.

A compilation of their wisdom and stories, it surely guides church leaders and members to practice the intentional efforts needed to foster an entire culture in which people grow in Christian faith.

And they will grow, not because of human research, but by the power of the Word and of the Holy Spirit working through the church—the same way disciples have always been made. When the people of God engage in the mission of God through the Spirit of God, lives are transformed.

### Transformational Groups: Creating a New Scorecard for Groups by Ed Stetzer (Author), Eric Geiger (Author)

God declared through the Apostle Paul that the church would be a place of transformation. In 2 Corinthians 5:17 we find, *Therefore, if anyone is in Christ, he is a new creation; old things have passed away, and look, new things have come.* Despite this, the church seems increasingly to be a place where transformation fails to occur.

Surveying the landscape, however, there are some bright spots where churches are faithfully producing transformed disciples. Furthermore, as shown in Scripture and supported by new research, God designed such transformation to often happen in the context of smaller groups of people.

But what characteristics are true of churches that are making transformed disciples through group-based ministry—whether small groups, missional communities, Sunday school, or some other expression of groups?

### Transformational Task Forces: Leading Congregations Away from Minefields by N. Graham Standish

Setting Up Transformational Task Forces

In originally setting up these task forces, I was going on intuition as to how to proceed. Now, looking back on 16 years of employing them, I recognize basic rules that are important to creating healthy and effective task forces:

## Transformers 101

NO, we are not going to be talking about Optimus Prime, the fictional character from the Transformers franchise who is depicted as having strong moral character, excellent leadership, and sound decision-making skills always striving to save the world. RATHER, this workshop will discuss character, leadership, change, missional consciousness and tools that you can use to transform your ministry and move your congregation forward in God's mission. This workshop will be led by some of the 10 leaders from our synod who attended the ELCA's Transformational Ministry Workshop last weekend.

## Transforming Church: Bringing Out the Good to Get to Great (Blank) [Kevin G. Ford]

The mission of the church is change-to partner with God to transform lives. But in order to change people, ministries must first manage and lead change from within.

Too often churches are unable to reform and revise their approach to ministry. Declining churches need to rebuild. Stagnant ministries must pursue the next level. Even growing congregations can struggle to keep up with the pace of change. So why do so many churches fail to adapt? How can ministries envision, implement, and evaluate effective change?

Kevin G. Ford has the powerful answers. As a consultant to ministries across the country, Ford has helped hundreds of churches experience genuine change and growth. Filled with eye-opening insights, *Transforming Church* identifies five dysfunctions of an unhealthy church, and shares the five key indicators of a healthy, vibrant congregation. You'll discover the keys for creating a church that transforms lives, your community, and the world.

### Transforming Congregations for the Future (Once and Future Church Series) [Loren B. Mead]

In this third volume of the Once and Future Church Series Loren Mead focuses on what he sees as the age-old call of the church - living and breathing the good news promise of spiritual transformation for all to see. He explores how we as the church may need to change as institutions and as individuals within institutions.

### [PDF]TRANSFORMING LEADERSHIP: FROM COMPETITION TO KOINONIA

The church in all its expressions is a people called by God and sent into the world to be God's demonstration community. The ways people relate to and care for each other is to manifest, or at least point to, what life is like inside the reign of God.

### Transforming Leadership: Jesus' Way of Creating Vision, Shaping Values & Empowering Change [Leighton Ford]

A book for leaders, by leaders, about the greatest leader of them all.

In our rapidly changing and ever more complex world, we suffer a crisis of leadership. Leighton Ford sees the growing dearth of bold leaders--in the marketplace, religion and public life. In this powerful book, Ford calls Christians to be transformational leaders. Many leaders work within situations; transformational leaders change situations. Many leaders accept what can be talked about; transformational leaders change what can be talked about. Many leaders talk about payoffs; transformational leaders talk about goals. Many leaders bargain; transformational leaders appeal to a common vision.

Ford realizes that desperately needed Christian and transformational leadership will not emerge until we have a model of the transforming leader. And what more powerful example of leadership could there be than Jesus? Insightfully examining Jesus' work and the best recent books on leadership, Ford presents the leader as strategist, seer, seeker, servant, struggler, sustainer.

Executives, pastors, managers, professionals--all will benefit from this fresh, in-depth treatment by a man who is himself one of the world's finest Christian leaders.

### Transforming Leadership: New Vision for a Church in Mission (Prisms) by Norma Cook Everist (Author) by Craig Nesson (Author)

*Transforming Leadership* sets forth the core values and leadership practices that can bring fundamental transformation to the life of the local church. Based on experience and research, Everist and Nesson explore three dimensions of transforming leadership: (1) how leaders are formed and transformed, (2) how transforming leadership can renew congregations and focus their ministry to do justice, and (3) how congregations can be transformed by empowering all members to use their gifts for ministry.

Committed to the vitality and mission of the congregation, the authors promise neither a quick fix nor easy answers. Transforming leadership, they have found, is deeply rooted in theological conviction, expressed in genuine love for the people one serves, and

cultivated through wise practices. The book grapples with challenging congregational dynamics, promotes the ministry of all the baptized, and provides vision for the lasting renewal of the church in mission.

### Transforming Rituals: Daily Practices for Changing Lives [Roy M. Oswald, Jean Morris Trumbauer, Director of the Doctor of Ministry Program]

Today's rapid, deep, and pervasive changes in North American culture present myriad challenges for faith communities now and in the years ahead. Oswald explores the use of rituals as spiritually healing practices for the home, congregation, and broader community. He teaches congregational leaders how individuals and groups can use familiar new rituals to name, evaluate, live out, celebrate, and grow through change.

### Transitional Ministry: A Time of Opportunity [Molly Dale Smith]

Transition is the word we use to describe the time following significant change. In congregations, that change might be the departure of the pastor, a catastrophe such as Hurricane Katrina or 9/11, or simply the changes caused by growth. Transition calls for clergy with special training to respond to the needs generated by the special time. "Task, training, and time limit" are the hallmarks of transitional ministry. Trained intentional interim clergy must have the skill and experience to **lead** congregations during transition.

However, transitional or interim ministry has a bad reputation in some places. As one diocesan leader said, "We have never had a church in this diocese that was so bad of that an interim was needed." Indeed, there are some "sick" churches, but most congregations have some good things happening and some things that need attention. Intentional interim ministry can be medicine for the sick, but, in most cases, it is better compared to vitamins that are taken to promote health.

This book seeks to clear up misconceptions about transitional ministry and present an accurate and up-to-date picture of transitional ministry and to describe the various settings in which this specialized ministry might be helpful.

Chapter authors, all expert in transitional ministry in mainline Protestant denominations, include: Robert Friedrich, John Keydel, George Martin, Loren Mead, Barry Miller, Nancy Miller, Ineke Mitchell, Ken Ornell, Molly Dale Smith, and Rob Voyle.

#### 5 Transitional Ministry as an Opportunity to Lead

Page 63

Beverly A. Thompson and George B. Thompson, Jr.

Transitional ministry can be tremendously helpful for congregations in times of change, and yet, to be successful today transitional ministers and churches need to take into account the major changes in the religious landscape. From the decline of mainline churches to the rise of those who don't identify with any religious tradition, the religious scene has changed dramatically since transitional ministry began three decades ago, and to remain vital today, the practice of transitional ministry must change as well. This book provides transitional ministers and congregations with essential information on re-thinking transitional ministry in ways that take the current religious climate into account. Ten experienced authors—including seasoned practitioners of transitional ministry and those who oversee transitional ministry denomination-wide—propose new ways to approach transitional ministry today. Chapters address practical theology, leadership, specialized interim situations, renewal during interim time, alternative models of transitional ministry, and more. Essays address a range of diverse churches in size, racial/ethnic background, and location.

*Transitional Ministry Today* highlights how creative and cutting-edge ministry can be done during the "in-between-time" through creative thinking and practice in the face of new realities

## From Values to Action: The Four Principles of Values-Based Leadership [Harry M. Kraemer]

Respected former CEO, professor, and speaker examines what it takes to become a values-based leader

In this highly-anticipated book, Harry Kraemer argues that today's business environment demands values-based leaders who, in "doing the right thing," deliver outstanding and lasting results. The journey to becoming a values-based leader starts with self-reflection. He asks, "If you are not self-reflective, how can you know yourself? If you do not know yourself, how can you lead yourself? If you cannot lead yourself, how can you lead others?" Kraemer identifies self-reflection as the first of four principles that guide leaders to make choices that honor their values and candidly recounts how these principles helped him navigate some of the toughest challenges he faced in his career.

Offers a framework for adopting the principles of values-based leadership? self-reflection, balance, true self-confidence, and genuine humility? to lead organizations effectively

Based on Kraemer's popular Kellogg MBA course on values-based leadership

A recognized expert in values-based leadership, Kraemer is a sought after speaker on the subject

Lively and engaging, Kraemer's book comes at a critical time when true leadership in every facet of society is desperately needed.

### Why Leaders Lose Their Way — HBS Working Knowledge

#### VALUES-CENTERED LEADERSHIP

Leading is high stress work. There is no way to avoid the constant challenges of being responsible for people, organizations, outcomes, and uncertainties in the environment. Leaders who move up have greater freedom to control their destinies, but also experience increased pressure and seduction.

Leaders can avoid these pitfalls by devoting themselves to personal development that cultivates their inner compass, or True North. This requires reframing their leadership from being heroes to being servants of the people they lead. This process requires thought and introspection because many people get into leadership roles in response to their ego needs. It enables them to transition from seeking external gratification to finding internal satisfaction by making meaningful contributions through their leadership.

Maintaining their equilibrium amid this stress requires discipline. Some people practice meditation or yoga to relieve stress, while others find solace in prayer or taking long runs or walks. Still others find relief through laughter, music, television, sporting events, and reading. Their choices don't matter, as long as they relieve stress and enable them to think clearly about work and personal issues.

### **What is vocational ministry? | GotQuestions.org**

Answer: Vocational ministry is traditionally understood as a career in which someone is paid for working full-time in a Christian organizational setting. Pastors, missionaries, and full-time evangelists are examples of people involved in vocational ministry.

### **Churchill: A Life [Martin Gilbert]**

Distilled from years of meticulous research and documentation, filled with material unavailable when the earliest books of the official biography's eight volumes went to press, *Churchill* is a brilliant marriage of the hard facts of the public life and the intimate details of the private man. The result is a vital portrait of one of the most remarkable men of any age as well as a revealing depiction of a man of extraordinary courage and imagination.

### Open Source Church: Making Room for the Wisdom of All [Landon Rev. Whitsitt Author]

Open source software makes the basic program instructions available for anyone to see and edit. An 'open source church,' likewise, is one in which the basic functions of mission and ministry are open to anyone. Members feel free to pursue their callings from God that are consistent with what God has called the congregation to be and do. But what does 'open source church' look like? In *Open Source Church: Making Room for the Wisdom of All*, Landon Whitsitt argues that Wikipedia, the encyclopedia that anyone can see and edit, might be the most instructive model available to help congregations develop leaders and structures that can meet the challenges presented by our changing world. Its success depends, he demonstrates, not on the views of select experts but on the collective wisdom of crowds. Then, turning to the work of James Surowiecki in *The Wisdom of Crowds*, he explores the idea that the body of Christ itself--when it is intentionally diverse, encourages independence of thought, values decentralization, and effectively captures and aggregates the group's collective wisdom--is an open source church. Together, these phenomena show us what an 'open source church' looks like. It is the body of Christ at its best.

### Wisdom - Wikipedia

Christian theology

In [Christian theology](#), "wisdom" (From [Hebrew](#): *חָכְמָה* transliteration: chokmâh pronounced: khok-maw', [Greek](#): *Sophia*, [Latin](#): *Sapientia*) describes an aspect of God, or the [theological](#) concept regarding the wisdom of [God](#).<sup>[*citation needed*]</sup>

There is an oppositional element in Christian thought between [secular](#) wisdom and Godly wisdom. [Paul the Apostle](#) states that worldly wisdom thinks the claims of [Christ](#) to be foolishness. However, to those who are "on the path to salvation" Christ represents the wisdom of God. ([1 Corinthians 1:17–31](#)) Wisdom is considered one of the [seven gifts of the Holy Spirit](#) according to Anglican, Catholic, and Lutheran belief.<sup>[*?*]</sup> [1 Corinthians 12:8–10](#) gives an alternate list of nine virtues, among which wisdom is one. The book of Proverbs in the Old Testament of the Bible primarily focuses on wisdom, and was primarily written by one of the wisest kings according to Jewish history, King Solomon. Proverbs is found in the Old Testament section of the Bible and gives direction on how to handle various aspects of life; one's relationship with God, marriage, dealing with finances, work, friendships and persevering in difficult situations faced in life.<sup>[*?*]</sup>

<sup>[*?*]</sup> According to King Solomon, wisdom is gained from God, "For the Lord gives wisdom; from His mouth come knowledge and understanding" Proverbs 2:6. And through God's wise aide, one can have a better life: "He holds success in store for the upright, he is a shield to those whose walk is blameless, for he guards the course of the just and protects the way of his faithful ones" Proverbs 2:7-8. "Trust in the LORD with all your heart and lean not on your own understanding; in all your ways submit to him, and he will make your paths straight" Proverbs 3:5-6. Solomon basically states that with the wisdom one receives from God, one will be able to find success and happiness in life.
